Welcome to the 26th IEEE International Conference on High Performance Computing, Data, and Analytics

December 17-20, 2019 | Hyderabad, India | www.hipc.org

HiPC 2019 CALL FOR PARTICIPATION

HiPC 2019 is the 26th edition of the IEEE International Conference on High Performance Computing, Data, and Analytics. The conference will focus on HPC as well as Data Science. We will also use HiPC 2019 to explore programs that expand and enrich the conference offerings, like tutorials and Birds-of-a-Feather meetings, which give added value to conference attendees.

HiPC receives strong industry support from companies operating globally and also established in India. In addition to the two days of industry exhibits, the sponsoring partners to the conference hold industry symposiums to bring together providers and users of HPC in a forum for presenting state-of-the-art in HPC platforms and technologies and their applications in data science.

HiPC 2019 CALL FOR PAPERS

The meeting will be organized under two focus areas: HPC and Data Science. The conference features a robust single track technical program of peer reviewed papers and invited keynote lectures. Complementing the main technical program, HiPC workshops serve to broaden the technical scope of the conference in emerging areas of high performance computing, communication, data, analytics, data science, and their applications. The conference encourages student participation by providing an international forum to highlight student research accomplishments in HPC as well as data science. The symposium also gives students exposure to the best practices of senior researchers in these areas in academia and industry.

Authors are invited to submit original unpublished research manuscripts that demonstrate current research in all areas of high performance computing, data, analytics, and data science.

For more details see the HiPC website www.hipc.org

GENERAL CO-CHAIRS

Chiranjib Sur, Shell, India
Yinglong Xia, Huawei Research, USA

PROGRAM CHAIRS

High Performance Computing

Ananth Kalyanaraman,
Washington State University, USA

Data Science

George Karypis, University of Minnesota, USA

PROGRAM VICE-CHAIRS

HPC Tracks

Algorithms: Bora Uçar, CNRS and École normale supérieure de Lyon, France

Applications: Alba Cristina M.A. de Melo,
University of Brasilia, Brazil

Architecture: Smruti Ranjan Sarangi,
Indian Institute of Technology Delhi, India

System Software: Sriram Krishnamoorthy,
Pacific Northwest National Laboratory, USA

Data Science Tracks

Scalable Algorithms and Analytics: Srinivasan Parthasarathy,
Ohio State University, USA

Scalable Systems and Software: Gagan Agrawal, Ohio State University, USA

STEERING COMMITTEE CHAIR

Viktor K. Prasanna
University of Southern California, USA

IMPORTANT DATES

Abstract Submission: **June 7, 2019**

Paper Submission: **June 14, 2019**

Reviewer Rebuttals: **July 29, 2019**

Rebuttals due: **August 5, 2019**

Initial Decision: **August 19, 2019**

Revisions Due: **September 20, 2019**

Accept/Reject Decision: **September 30, 2019**

Camera Ready: **October 14, 2019**

CO-SPONSORED BY

Technical Committee on Parallel
Processing & HiPC Education Trust, India
